RE: Travel - Meaning of "Common Carrier"

In your letter of June 6, 1956, you request an opinion as to whether travel by air is authorized by section 11-1015 of the 1953 supplement. The pertinent part of that statute does authorize travel "by rail or other common carrier."

A search through "Words and Phrases" indicates that for almost every purpose imaginable, a commercial airline does qualify as a common carrier within the meaning of various statutes. Therefore it is our opinion that section 11-1015 does authorize plan travel.
